	Serial No.	
24524	4	Letter No 2 1509-27 of 22-11-27 from the Dy Comr Bsre Dt forwarding a copy of the resolution of the mtg of Municipal Council requesting an interview for the Dewan to represent certain matters relating to the work water supply scheme of Hunsur Town
		The Dy Comr letter is submitted for perusal and orders
1927-26		The facts of the case are as follows
		The original proposal re the Hunsur water supply scheme was that Govt should provide for all the loan, Grant and Water Works & Plant charges about Rs 70000/- The D.C was told that this was not possible and the scheme might be deferred for some time

Norm—Origin. Sheet.

Serial No

Letter No 4288 dated 17th November 1928, from the Chief Engineer forwarding a project amounting Rs 90,000/- for improving the water supply to Hunsur Town.

36 Submitted with reference to certain points raised by the Financial Secretary in para 17 of the notes

37 The Chief Engineer estimates the annual maintenance charges of the water works at Rs 3 000/- The Municipal Council propose to meet these charges by increasing some of their taxes and by levying water rate

Vide Flag S. in File No Ml.87-22-

38 As it is, the financial condition of the Municipal Council is sound The normal income exceeds the normal expenditure by about Rs 2,300/-

Vide Flag L

39 As regards centage charges the Chief Engineer is agreeable to reduce the same and has accordingly charged only Rs 7 000/- in the estimate instead of Rs 14 498/- (vide the 2nd member note minute on para 38 of the notes)

Vide para 7 of the Chief Engr's note in the Water Supply Flag K

40 The Chief Engineer's note dated 7th November 1928 explains the scheme and of the cost to be met by the Municipal Council and Government

41 The Municipal Council are agreeable to meet half the cost of the estimate and requests that the other half may be met from the State Funds The Chief Engineer writes that a sum of Rs 10 000/- is provided for this work during the current year towards the Government portion of the estimate (This is perhaps due in the distribution of State Grant of Rs 50 000/- for water supply in Towns Orders have not been issued distributing this grant)

Vide the Dy Commr's on Water Supply S. Flag J and a so Leg. N

42 The estimate may perhaps be sanctioned and the work

44 The proposals may be sent (Finance Department) to Government direct through Revenue Secretariat.

RS 20/11/28

45 I agree that the proposals for improving the Water supply to Hunsur Town, estimated to cost Rs 90,000/- may be sanctioned

46 The Municipality is agreeable to meet its quota viz., Rs 45,000/- and has undertaken to bear the annual maintenance charges of Rs 3000/-, by the levy of water rate etc , It has got a reserve of Rs 38,000/- at its credit and the balance to make up its half share is expected to be realised by the collection of the Municipal arrears aggregating about Rs 10,000/-. For the Government share of the cost a sum of Rs 10,000/- is proposed to be allotted out of the provision of Rs 50,000/- made in the Budget for improvement of water supply in towns.

47 Even if the construction be started immediately, it is likely that the amount now available (ie , Municipal quota plus Rs 10,000/- of the Govt share) will be adequate to meet the expenditure to be incurred during the official year. The balance of the Government grant may be provided

Final Note by the Second Member of Council

Subject: Improvements to Hunsur Town Water Supply

The question of the improvement of the Water Supply to the Hunsur Town has been engaging the attention of both the Municipal Council of Hunsur and of Government for some time past

The Chief Engineer has now forwarded a project for Rs 90,000 after reducing the establishment, Tools and Plant charges and the Municipal Council have come forward with a proposal to meet half the cost of the scheme, the other half being borne by Government They have further agreed to bear the annual maintenance charges of Rs 3,000 by the levy of water-rate

The Municipal Council have got a reserve of Rs 38,000 at their credit and the balance to make up their share is expected to be realised by the collection of the Municipal arrears aggregating about Rs 10,000 For the Government share of the cost, a sum of Rs 10,000 is allotted out of the provision of Rs 50,000 made in the State Budget for the improvement of water suply in Towns in the current year Thus the amount now available (i e , the available Municipal quota plus Rs 10,000 of the Government) will be adequate to meet the expenditure during the current official year even if the work is started immediately The Financial Secretary proposes that the balance of the Government grant may be provided in the next year's State Budget

The project which has been approved by the Dewan and the other Members of Council may graciously be sanctioned

Dt 15/3/28

For Dep Comm

WATER SUPPLY TO NUNSUR TOWN

The first Scheme for water supply to Hunsur Town through pipes was sanctioned in 1896-97 for Rs.20,000/- and the final outlay amounted to Rs 26,000/- The entire cost was then borne by the Municipality by taking a loan from Government and the loan has been discharged As only that portion of the Town lying on a lower level was benefited by this Scheme, the rest of the town resorted to the river for water Several projects and estimates were prepared and the latest revised estimate is for Rs 95,000 prepared by the Executive Engineer Spl Water Supply Construction Division and duly approved by the Hunsur Town Municipal Council The Council agreed to meet half the cost of the Scheme and prayed that the Government be requested to meet the other half They resolved on 1-4-1926 that the Government be requested to advance them a loan of Rs 20,000 to make up the moiety of the cost payable by them and waive the Tools and Plant charges amounting to Rs 14490/-

As the Government rejected their prayer for a loan from the Taluk Board, the Government was reques to advance a sum of Rs 15,000/- as a loan to the Municipality repayable in 20 annual equal instalments with interest at 5% per annum

The Government was requested in this office No [illegible]/A C dated 13-8-1927 to approve of this scheme and to grant the loan as there was adequate guarantee to meet the equated payment and annual maintenance eh

32

4 The Government on 17-8-1927 replied that the proposals made for financing the Scheme involved a heavy demand of Rs.70,000 in all on State Funds, towards contribution, loan and Tools and Plant charges to be waived, and that the additional income expected by the Municipal Council for paying away the loan of Rs.15,000 proposed to be taken from Government, was not likely to be easily realised. The Government considered that the scheme has to be deferred for some time and the possibility of some simpler and less costly scheme investigated.

5 The Municipal Council thereafter passed a resolution on 22-7-1927 to the effect that out of the total estimated cost of Rs.85,000 as much as Rs.65,334 represents the cost of acquisition of land, and purchase of pipes and other materials, that the Public Works Establishment has little or no work in connection with these items beyond indicating the land to be acquired and the articles to be purchased, that the cost of construction proper comes up to only Rs 34,678. that it is only in this amount that the Public Works may reasonably claim establishment and Tools and Plant charges, and that therefore these charges on construction proper would amount to only Rs.6333/-. The total cost of the estimate would thus be reduced to Rs. 80,999/-. The Municipal Council agrees to meet half of this cost, viz., Rs.40,500/- and to provide this sum during the current year itself and requests that the Government be pleased to grant the other half of the entire cost in 1928-29.

The President states that the Municipality has got at its credit in Government Savings Bank etc., a sum of Rs.41,877-2-11. The Municipal Council expects to collect the arrears of Mahatarfa and other taxes to meet the small amount still due. The Government was requested in this office letter dated 20-8-1927 to sanction the project - as the people are very keen on this and the major portion of the Municipal arrears aggregating Rs.10,000 would be realised this year, and the Municipal Council would thus be in a position to pay its share of the cost and as several schemes had been considered from time to time and the Executive Engineer, Spl.Water Supply and Construction Division had prepared the present project after personal discussion and investigation and any other scheme was not likely to solve the question effectively

6 Government in G O No L.1831 dated 24-9-27 stated in reply that the proposal would be considered at the time of preparing the next year's budget

7 In the Budget Estimates for 1928-29 of this Municipality submitted to Government, the Council have made a provision of Rs 32,000 towards the Water Supply Scheme

8 The liquid assets of the Council on 1-7-28 are estimated to stand at Rs 42,100 as against a liability of Rs.771/- deposits to be returned

From

JOHN BHORE, Esq., A.M.I.C.E.,
Chief Engineer of Mysore,
Bangalore.

To

2189

The Hon'ble Rao Bahadur C. Ranga Rao, Esq., B.A., B.L.,
General Secretary to the Government
of His Highness the Maharaja of Mysore,
B A N G A L O R E.

Sir

I have the honor to forward herewith a project amounting to Rs 90,000/- (as corrected in this office) for improving the water supply to Hunsur Town. A provision of a duplicate set of [illegible] machinery at a cost of Rs 4,000/- is made, as it is inadvisible to depend on only a single set for a town water supply.

2. The source of supply is the Lakshmanatirtha River. A masonry suction well 10½ feet diameter and 30 feet deep will be constructed at the river edge and water pumped to the Service Reservoir.

The scheme consists of the following Works :-

		Cost.
(1).	Suction well.	Rs 3,800/-
(2)	Pump House.	Rs 6,570/-
(3)	Machinery, in duplicate.	Rs 18,700/-
(4)	Rising Main.	Rs 15,670/-
(5)	Service Reservoir.	Rs 9,660/-
(6)	Distribution system.	Rs 20,950/-
(7)	Unforseen charges.	Rs 870/-
(8)	Survey charges and temporary establishment.	Rs 800/-
		Rs 85,000/-
	Establishment, tools & Plant charges, lumpsum.	Rs 7,000/-
	Total.	Rs 90,000/-.

37

3 The annual maintenance charges would amount to Rs 5, which is a recurring expenditure The Council propose to l fresh water tax to meet the cost.

4 The President, Town Municipal Council, Husur, has signed the estimate.

5 The other particulars of the project are explained in report accompanying

6 I request that early sanction of Government may be o ed to the project A provision of Rs 10,000/- is made for t during the current year towards the Government portion of the est

I have the honour to be,
Sir,
Your most obedient servant,

17 K

CHIEF ENGINEER OF MYSORE.

NOTE ON HUNSUR TOWN WATER SUPPLY

An estimate amounting to Rs 95,000/- for water supply to Hunsur, has been countersigned by the President of the Town Municipal Council and sent to the Chief Engineer for submission to Government.

2 The estimate as corrected in Chief Engineer's Office amounts to Rs 97,370/-, the excess over the estimate of Rs 95,600/- is due to the provision now made, for 2 sets of Engines and Pumps, as it is not a satisfactory arrangement to depend on any one engine and pump for a town water supply

3 The source of supply is the Lakshmanatirtha River which is perenial, and ample supply of water is available even in the hottest months The Headworks are situated well above the town and free from contamination

4 The supply will be filtered and provides for a prospective population of 7,500 at 10 gallons per head per day

5 The Service Reservoir is situated on high ground which commands the whole town, and the distribution as proposed should give a satisfactory supply to all parts

6 The Municipality is prepared to pay half the cost of the scheme if establishment tools and plant charges are reduced These charges amount to Rs 14,498/-, which they contend are very high

7 We cannot accept the principle that --- establishment and tools and plant charges should be levied only on the works portion and not on pipes and machinery But, considering their financial position, I think some concession may be shown to them and a lumpsum charge of, say, Rs 7,000/- made which will reduce the estimate -- to Rs 90,000/- The Municipality will then to pay Rs 45,600/- No further concession can be shown as the cost of the establishment of the -- Sanitary and Town Planning Division is charged to works

8 There is a provision of Rs 10,000/- in this year's Budget for the Hunsur Town Water Supply

9 Tenders will be called for as soon as sanction to estimate is announced and work can be --- started early in January next

17-11-25

Proceedings of the Government of H.H. the Maharaja of Mysore.

R o a d.-

Correspondence ending with General Secy's letter No.L.1831/Mi.109-27-3 dated 24th September 1927, addressed to the Deputy Commissioner, Mysore District stating that the scheme relating to the Water Supply to Hunsur Town would be considered at the time of preparing the next year's Budget.

2. Letter No.4288 dated 17th November 1928, from the Chief Engineer, forwarding a project amounting to Rs.90,000/- for improving the Water Supply to Hunsur Town.

ORDER NO.L. 4502-4/Mil 109-27-7

Dated, Bangalore, the 21st December 1928.
1st Jan 1929

The Mi. Cl. of Hunsur have come forward with the proposal to meet ½ of the cost of the scheme for water supply to Hunsur Town, the rest being borne by the Government. They have further undertaken to meet the annual maintenance charges of Rs.3,000/- by the levy of water rate etc., They have a re-serve of Rs.38,000/- at their credit and the balance to make up their share of the cost is expected to be realised by the collection of the Municipal arrears aggregating to about Rs.10,000/-.

Towards the Govt. share of the cost a sum of Rs.10,000/- is proposed to be allotted out of the provision of Rs.90,000/- made in the State Budget for improvement of ---

42

of Water Supply in Towns in the currentyear. It is therefore likely that the amount now available (i.e, Municipal quota plus Rs. 18,000/- of the Government share) ~~which~~ will be adequate to meet the expenditure during the official year.

In these circumstances, Government are pleased to accord sanction to the estimate for Rs.90,000/- as forwarded by the Chief Engineer and direct that the work may be ~~immediately~~ started immediately.

The balance of the Govt. grant may be provided in the next year's Budget.

Proceedings of the Government of His Highness the Maharaja of Mysore.

R O U N D:-

Correspondence ending with General Secretary's letter No.L. 1831/MI.109-27-3 dated the 26th September 1927, addressed to the Deputy Commissioner, Mysore District, stating that the scheme relating to the Water Supply to Hunsur Town would be considered at the time of preparing the next year's Budget.

2. Letter No.4388 dated 17th November 1928, from the Chief Engineer, forwarding a project amounting to Rs.90,000/- for improving the Water Supply to Hunsur Town.

ORDER NO.L. 4502-04/ML109-27-7

Dated, Bangalore, the 27th December 1928.

The Municipal Council of Hunsur have come forward with the proposal to meet ⅓ of the cost of the scheme for water supply to Hunsur Town, the rest being borne by the Government. They have further undertaken to bear the annual maintenance charges of Rs. 3,000/- by the levy of water rate etc., There is a reserve of Rs.38,000/- at their credit and the balance to make up their share of the cost is expected to be realised by the collection of the Municipal arrears aggregating about Rs.10,000/-.

Towards the Government share of the cost a sum of Rs.10,000 is proposed to be allotted out of the provision of Rs.50,000/- made in the State Budget for improvement of Water Supply in Towns in the current year. It is therefore likely that the amount now available (i.e., Municipal quota plus Rs.10,000/- of the Government share) will be adequate to meet the expenditure during the current official year.

In these circumstances, Government are pleased to accord sanction to the estimate for Rs.90,000/- as forwarded by the Chief Engineer and direct that the work may be started immediately.
